Swimming Pool

The Balcony

Hotel

Castle In The Air

04 Product Model

01 E220-1

Upgraded Model

LED light in beams and posts. Bigger and Thicker parts.

02 E220

Comprehensive High-Level King

Medium-sized blades span up to 5 meters.

03 E170/M170

Eco-Friendly

Practical and beautiful, cost-effective.

05 E120/M120

Various Options

Delicate, both electric and manual for you.

04 M140

Minimalist Tooling

Square blades, simple and generous, with all functions.

1 Matching Products

Electric Windproof Roller Shutter

Through special design, testing, and processing, the wind-proof roller blind effectively combines the fabric and metal into one. It is an excellent product for heat insulation, sun shading, light adjustment, privacy protection, wind protection and UV protection.

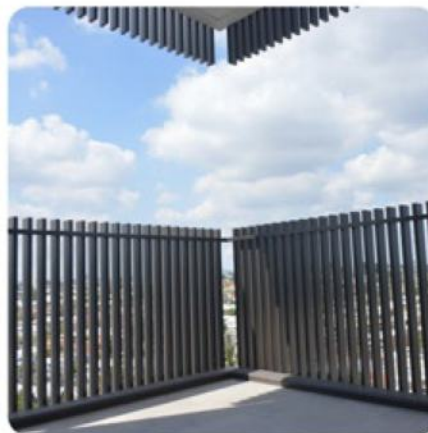

Aluminum Blinds

Aluminum alloy shutters are durable, shading and heat insulation, light weight and high strength. The wind pressure resistance value is 3000pa-3500pa, with safe and stable protection performance.

Aluminum Alloy Guardrail

Aluminum alloy guardrail has high strength and corrosion resistance. Compared with other traditional materials, its hardness can withstand greater impact and tension. He also has good flexibility, a greater integration of practicality and ornamenta.l

Gauze

The gauze curtain can effectively prevent strong light and ultraviolet radiation, solve the greenhouse effect, fight climate change, and have a long-term protective effect on the indoor environment.
